Organization Name	Organization City	Organization Province	Organization Country	Rank	Positions on positive LMOs
<p>Notes:</p> <ol style="list-style-type: none"> 1. Source: Foreign Worker System (FWS). 2. The table shows the top 200 employers using the Temporary Foreign Worker Program, based on the number of positions on positive labour market opinions (LMOs), from January 1, 2011 to December 31, 2011. 3. The organization locations are specified on LMO applications and are entered in the foreign worker system by the officer processing the application. The organizations in this table are based on their business name as it appears in the foreign worker system. Some organization names could have more than one associated city or province. 4. Occupational groups are ranked using the standard competition ranking (1-2-2-4). Groups with the same number of TFW positions receive the same ranking and then a gap is left in the ranking numbers. 5. One LMO application may be submitted by an employer for any number of TFW positions. LMOs related to hiring a skilled worker for a permanent position (arranged employment opinion) are not included. 6. The decision to issue a work permit rests with Citizenship and Immigration Canada (CIC). Not all positions on positive LMOs result in the issuance of a work permit: on average 50% of positive LMOs obtain a work permit. In addition, there is an average delay of 104 days between the decision date and the date on which the TFW obtains a work permit and/or enters Canada. 7. Not all TFWs require an LMO to apply for a work permit. A number of exemptions exist, including those provided for in the <i>General Agreement on Trade in Services</i> and the <i>North American Free Trade Agreement</i>. 8. The numbers appearing in this table may differ from those reported in previous HRSDC releases. These differences are adjustments to administrative data files as normally occur over time and reflect refinement in methods of calculation for the purpose of increasing accuracy in the way statistical information is presented.
